2. Amy's update-projects, HVAC system Nursery is done. New wires for HVAC controls are run in rooms with drop ceilings but not in "hard" ceiling rooms.
3. Pavilion process update Kurt would like to visit some local pavilions soon and move forward with a possible plan.
4. Security systems/processes-Naomi Naomi raised concerns about our security system. Lots of "unknown" people show up at the doors buzzing to be left in. Office staff need more ability to see who wants in. Amy will investigate wireless security systems.
5. Spring work day We set a date for Saturday May 4. Work to include getting rid of multi flower rose along stream.
6. Kitchen/FH project update from Duane Kitchen & Fellowship Hall are looking great! Should be "done" for Lavonne Grubb's memorial service March 16th. We are on schedule to receive our kitchen inspection and license as well as ECCC receiving theirs. We also approved the purchase of 2 new floor cleaners for our resilient floors. One large for FH & Kitchen and a smaller one for the levels not accessed by the elevator.
